

Trimurti Engineers

<https://www.indiamart.com/trimurti-engineers/>

We are a prominent **Manufacturer** and **Supplier** of superior quality **Submersible Pumps, Openwell Pumps** and **Borewell Pumps**. These pumps are manufactured as per the global set standards by our experienced team members.

About Us

Located at **Rajkot (Gujarat, India)**, we “**Trimurti Engineers**”, are leading **manufacturer** and **supplier** of qualitative range of **Submersible Pumps, Openwell Pumps** and **Borewell Pumps**. Since our origin in this domain in the year **2005**, we are providing a wide range of pumps. Find wide application in several industries, these pumps are used to transfer fluids by the conversion of rotational kinetic energy to the hydrodynamic force of the fluid flow. Being a quality-driven organization, we manufacture these pumps using quality assured components and advanced technology in adherence to global quality standards. These pumps are highly appreciated due to their features such as compact design, reliable usage, smooth functioning, long working life and easy installation. As per the diverse choices of the clients, we provide these pumps in numerous specifications to choose from. Quality of these pumps is checked on several parameters, in order to provide flawless range to the clients. Additionally, we provide these pumps in excellent packaging material at most genuine rates.

We are backed by well structural and robust infrastructural base that is considered as the strongest pillar of our firm and assists us in making world class pumps as per the industry set standards. Our infrastructural base comprises of sub-divisions such as procurement, R & D, admin, sales, production, quality testing, transportation, logistic,...
